Elaine:

Thank you for this information. In regards to the Gonzalez facility, the city Environmental Compliance staff have been inspecting the facility from 1979 to 2004. Abhik was able to locate the city inspector from 1984 to 2004, Bruce Seale. Mr. Seale, a current employee of the City, has been helpful in describing the general housekeeping aspects of the facility but the sampling performed did not test for metals or PCBs. Mr. Seale stated that there were two inspectors for the facility prior to him who have since retired. Mr. Seale did not provide a name or contact information. Based on the information provided by you, we have reason to believe that these individuals could provide important information as part of our investigation. Is there anyway that the City could provide these individuals' name and last known contact information?

Thank you,

Subject: Response to your January 3, 2013 email -- Yosemite Creek

Thanne,

This responds to your January 3, 2013 email providing the City with a list of parties for which EPA asked the City to search its Industrial Waste Program historical records. My client reports that only three of the listed entities were regulated under the City's Pretreatment Program: Coca-Cola USA, Die and Tool Products, and Gonzalez Bucket & Drum Co.

SFPUC has gathered its records for these dischargers and made them available for download via the following links. Please let me know if you have any further questions.

- [Coca Cola 1971-1992 Historical Records](#)
- [Die & Tool Products Inc 1995-2006 Historical Records](#)
- [Gonzalez Steel Drum Mfg Inc 1979-2005 Historical Records](#)
